Dear Ms. Johnson and Mr. McDowell,

Based on further review of the Zoning Change application regarding the cell phone tower, community service building, which includes commercial kitchen, offices, conference rooms and outdoor storage facilities, it has been determined that the application must be resubmitted separating the proposed uses in that some of said uses require a Conditional Use.

If you have any questions or concerns, please call me at 719-655-2321.

Thank you,

Amber Wilson
